Available for full-time roles — India & GCC

Hi, I'm Zishan.
I engineer interfaces that ship and scale.

Senior Frontend Engineer with 6+ years building production web apps in React, Next.js and TypeScript — from component architecture to CI/CD and deployment.

React Next.js TypeScript Angular Tailwind CSS Node.js Docker GCP Vercel

// about

Engineering with ownership.

I build reusable UI systems, integrate REST APIs and payment gateways, and turn client and stakeholder requirements into maintainable, high-performing products.

I'm comfortable across the delivery chain — Node.js APIs, Docker, GitHub Actions and cloud hosting — and I use Claude Code to move faster while reviewing every change for quality.

Years in production

Senior Frontend Developer

Webpotli E Services · Patna

Nov 2023 — Present

- Deliver production-grade web products and SEO-optimized platforms with Next.js, React, TypeScript and Tailwind CSS.
- Architect frontend systems from the ground up — reusable UI components, API and payment-gateway integrations, CMS-driven platforms.
- Primary technical liaison between clients, stakeholders and backend developers; own delivery from architecture to deployment.
- Roll out new client instances from a shared codebase on Fly.io with GCP databases, using Docker and GitHub Actions CI/CD.

Next.js React TypeScript Tailwind Docker Fly.io GitHub Actions

Frontend Developer

Jun 2022 — Oct 2023

VAMA.APP · Gurugram, Delhi NCR

- Built and deployed in-house and partner web apps with Next.js, React.js and Angular.
- Configured a headless WordPress + GraphQL setup powering the company blog and content platform.
- Mentored and supervised junior developers through project execution.

React · Next.js · Angular · WPGraphQL

Tech Lead

Jul 2021 — Jun 2022

iNurture Education Solutions · Bengaluru

- Led development of a multi-role MEAN-stack application integrated with CRM workflows.
- Translated business and product requirements into implementation across frontend and backend modules.
- Managed partner-university landing pages for digital marketing and SEO campaigns.

Angular 12 · Angular Material · Node.js · Express · MySQL · Sequelize

Software Engineer

Jun 2020 — Jun 2021

San Creative Solutions · Patna

- Built drag-and-drop landing-page creation with Angular Material for an education platform.
- Developed student and online-test modules, plus admin and student dashboard UIs.

Angular · Angular Material

// toolkit
