PROFESSIONAL SUMMARY

Frontend Engineer with 6+ years of experience building production web applications in React.js, Next.js and TypeScript, with prior experience in Angular. Experienced in developing reusable UI components, integrating REST APIs and managing end-to-end delivery from requirements to deployment. Familiar with latest Angular architecture, TypeScript-based development, and modern frontend development practices. Possess working knowledge of Node.js APIs, cloud hosting, and CI/CD workflows.

CORE TECHNICAL SKILLS

Frontend: React.js, Next.js (App Router, SSR/SSG), TypeScript, JavaScript (ES6+), Angular, HTML5, CSS3

UI & Styling: Tailwind CSS, Bootstrap, HeroUI, Angular Material, Responsive Design

State Management & Data: Context API, React Query, REST APIs

CMS: WordPress, Headless WordPress (WPGraphQL), Directus, Strapi

Cloud & Deployment: GitHub Actions, Docker, GCP, DigitalOcean, Fly.io, Vercel, Netlify, cPanel

Version Control & Tools: Git, GitHub, GitLab, Bitbucket, Jira

Analytics & Marketing: Google Tag Manager, Google Analytics, Meta Pixel, Glance Ads SDK

Backend (Basic working knowledge): Node.js, Express.js, PostgreSQL, MySQL, Sequelize, TypeORM, Supabase, JWT Authentication

AI-Assisted Development: Claude Code for code generation, refactoring, debugging and development productivity

PROFESSIONAL EXPERIENCE

Senior Frontend Developer | Webpotli E Services Pvt. Ltd., Patna

Nov 2023 – Present

- Delivered production-grade web products and client solutions using Next.js, React, TypeScript, Tailwind CSS and modern UI component libraries.
- Designed and built SEO-optimized web platforms with responsive UX, maintainable component architecture and strong production performance.
- Served as the primary technical liaison between clients, business stakeholders and backend developers, converting requirements into technical solutions and owning delivery from architecture to deployment.
- Architected frontend systems from the ground up, including reusable UI components, API integrations and CMS-driven dynamic platforms.
- Integrated REST APIs and payment gateways, partnering with backend teams to deliver end-to-end application functionality.
- Deployed new client instances from a shared codebase as separate Fly.io deployments (frontend + backend, GCP databases) using the existing Docker and GitHub Actions CI/CD pipeline.
- Used Claude Code to accelerate development, refactoring and debugging, while reviewing all generated code for quality and correctness.

Frontend Developer | VAMA.APP, Gurugram (Delhi/NCR)

Jun 2022 – Oct 2023

- Developed and deployed in-house and partner web applications using Next.js, React.js and Angular.
- Contributed to products that supported approximately one-third of the company's revenue growth.
- Owned frontend implementation across assigned applications, working closely with backend and business teams throughout delivery.
- Trained and mentored four interns who were subsequently hired as junior developers, helping them develop the technical skills required for production development.
- Configured a headless WordPress setup using GraphQL to power the company's blog and content platform.

- Handled responsive UI development, API integration, application maintenance and production deployment.

Tech Lead | iNurture Education Solutions Pvt. Ltd., Bengaluru

Jul 2021 – Jun 2022

- Led development of a multirole MEAN-stack application integrated with CRM workflows, using Angular 12, Angular Material and Bootstrap on the frontend, and Node.js, Express.js, MySQL and Sequelize on the backend.
- Translated business and product requirements into technical implementation across frontend and backend modules.
- Managed partner-university's landing pages for digital marketing and SEO campaigns, focusing on performance, content and search visibility.
- Maintained existing WordPress websites and supported content-driven web operations.
- Resolved minor production/server issues using cPanel and coordinated website updates and deployments.

Software Engineer | San Creative Solutions Pvt. Ltd., Patna

Jun 2020 – Jun 2021

- Built dynamic landing-page creation functionality using Angular Material drag-and-drop for an education-focused application.
- Developed and maintained application modules, including student and online-test workflows, as part of a cross-functional team.
- Designed and implemented dashboard UI for administrative and student-facing modules.
- Enhanced existing application interfaces through UI fixes, usability improvements and ongoing maintenance.

PORTFOLIO PROJECTS

CalQ (https://calq.online) — Built an SEO-optimized utility platform with Next.js and TypeScript using an AI-assisted workflow: a reusable codebase with 100% client-side financial calculators, Hindi/Urdu font converters and mobile-optimized image resizers.

EDUCATION

- B.Sc. Engineering (Computer Science) — Maulana Azad College of Engineering & Technology, Patna | 2012
- 12th (Intermediate) — B.I.E.C, Patna | 2006
- 10th (Matriculation) — B.S.E.B, Patna | 2003

ACHIEVEMENTS

- Merit-cum-Means Scholarship from the Central Government of India.
